Infantry Rest While Artillery Smooth Way For Further Activity

Move by Germans to Shift British from Present Salient East of Ypres Expected—Position Renders German Line Insecure from Dixmude North to Coast and Southward to Lens—French Again Repulse German Efforts in Aisne Sector and Succeed in Making Small Advance.

(By Morning Bulletin Leased Wire)

LONDON, Aug. 13.—Infantry fighting on the western front and especially in Flanders has not been marked during the past 24 hours. In southern Moldavia the Teutonic drive against the Russians and Roumanians progresses.

In Flanders the Anglo-French and German troops apparently are resting in preparation for further infantry activity. The Germans can hardly permit the British to hold their present salient east of Ypres and between Pilken and Hollebeke without first making additional efforts to straighten out their front. By widening the salient, Field Marshal Haig has added to the insecurity of the German line from Dixmude north to the coast as well as to the front southward toward Lens.

French troops again have repulsed German efforts along the Aisne front. Sunday night and on Monday the Teutons tried to recapture the ground lost to the French south of Aisles. The French threw back all the attacks. East of the positions the French took the offensive and succeeded in making a small advance. Elsewhere on the French front the artillery fighting continues violent.

The Russians and Roumanians having been forced to give up the Fokshani-Marazchi line and retire to the Sereth River, Field Marshal von Mackensen has been enabled to capture Pantzau, a railway town west of Marazchi. By taking the town the Teutons probably have cut the railway line north, imperiling the Russians and Roumanians fighting in western Moldavia around Oena as the rail-road north from Marazchi was one of their two means of obtaining supplies and reinforcements.

Airplane Activity.

LONDON, Aug. 13.—The official statement from British Headquarters in France issued tonight reads:

"The hostile artillery showed increased activity during the morning southeast of Arras-Cambrai Road, and in the Neuport area.

"Our airplanes and balloons carried out a great and successful work yesterday in conjunction with our artillery. Many photographs were taken and four hostile airdroppings were heavily bombed. Enemy aircraft again were particularly aggressive. In the fighting in the air nine German airplanes were brought down, two of which fell within our lines, and eight others were driven down out of control. Seven of our machines are missing."

Repulse and Advance.

PARIS, Aug. 13.—The war office communication issued this evening says:

"The artillery duel was very violent today between Cerny and Craonne. The Germans again attempted to eject us from the trenches we captured to the south of Aisles. We repulsed all attacks and our troops succeeded in making rapid progress to the left of that position."

"The city of Reims today received 500 shells, most of which were incendiary. Four civilians were killed and two wounded.

"Violent artillery fighting took

place in Champagne Mort Carrillet, on both banks of the Meuse, and in the Parroy Forest. No infantry action took place.

"Army of the east, Aug. 12: Patrol encounters have been reported in the Struma Valley. The cannonade has been rather spirited all along the front, especially in the Cerna Bend. British aviators have bombed enemy lines near Xanthi, and French aviators have bombed the region between Malak and Ochrida Lakes."

RUSSO-CAPTURE PRISONERS.

PROTEGORAD, Aug. 13.—(British Admiralty per Wireless Press)—In repulsing a Teuton attack in the valley of the river Slomnik, western Moldavia, the Russians yesterday captured more than 600 prisoners and four field pieces. According to the official statement issued today, in regions of Oena the Russians and Roumanians drove the Austro-Germans from a series of heights. In the fighting around Fokshani, the Russians and Roumanians captured 500 Austrians, but were compelled to retire slightly.

ROME, Aug. 13.—The Italian war office issued the following statement today:

"The artillery duel was most intense east of Gorizia and the Dose. There were brisk actions by reconnoitering parties between Chiessa and the Astico and in the Padola Valley. There was considerable artillery activity along the whole front."

LARGE PARTY OF VETERANS COMES HOME

Familiar Scenes Re-enacted When Returned Men Are Welcomed.

Twenty returned soldiers arrived last night on the train from the south and were given a warm welcome home by a big crowd which filled the station and platforms at the C. P. R. station. The same old familiar scenes were re-enacted. There were the same joyful reunions with wives, children and other relatives with the loved ones. The same strains of band music. The same craning of heads to see the homeowners. The same procession of laden automobiles bearing the "boys" and their families in proud procession down Jasper avenue.

The officers of the Great War Veterans Association, Rev. Mr. Grier of the Military "Y," Colonels Macrae, Macdonald and others were on hand as a reception committee and left nothing undone to make the home coming of the veterans a happy one.

The men who arrived were as follows:

Louis W. Morgan, R. E. Kottnier, 1st Pioneer, Ernest Kelly, 65th, 107th street and Columbia Avenue; S. H. Witcher, 66th, Vermilion; G. W. Bentley, 66th, 20 Balmoral block; Wm. Neil, 138th, 1283 67th street; W. E. Hobday, 51st, 9619 102nd Avenue; W. E. Plowman, 49th, 1125 91st street; E. W. Daniel, 49th, 91st street; L. Leslie Green, 51st, city; George H. Jackson, 29th, city; T. Cole, 66th, 11736 88th street; A. Burr, 66th, 244 Edmonton street; J. Gordon, 1st, city; W. Graham, 11th, F. A. city; F. D. Locke, 11th, F. A. city; Albert Skett, 23rd, city; W. Royce, 63rd, city; C. Logan, 51st, city.

FARMER ARRESTED ON MURDER CHARGE

Winnipeg Man Alleged To Have Been Shot Near Dauphin, Manitoba.

(By Morning Bulletin Leased Wire)

DAUPHIN, Man., Aug. 13.—B. S. Roberts, of New York, who has been looking over the southern part of the province for the purpose of buying live stock, was arrested yesterday by the man with whom he was travelling, an automobile and robbed of \$3,600. The robbers took the train at Midale for Moose Jaw. Police entered the train at Pasqua and arrested Jack Bloomberg, a character well known in police circles. Two other men jumped from the train near Pasqua, Carl Berndt, the chauffeur, was arrested at Midale and is being held as a witness.

The matter of delay in unloading has been so serious that Mr. Magrath has taken up the matter with Sir Henry Drayton, chairman of the railway commission. He has at once shown his willingness to compensate and a drastic order has been passed by the board to compel rapid unloading and return of cars.

The fuel controller urges in the strongest possible manner that Canada is to continue to secure American coal for the purpose of getting in loading and returning of cars.

The American authorities absolutely insist on this. Recently the United States increased their demurrage charges, but the Canadian demurrage is now stiffer.

"Co-operation is needed if we are to get in the necessary supply," said Mr. Magrath. "Rapid unloading is absolutely necessary as there is just as great a car and coal shortage in the United States as in Canada. Any delay in returning equipment is only assisting the enemy."

On July 5, when he left the village of Laurier, Man., in an auto with Letaine, Bullet holes have been found in the auto.

Letaine, who did not plead, was remanded for a week.

"DO NOT DESERT US IN OUR HOUR OF NEED," SAYS GEN. CURRIE

(By Morning Bulletin Leased Wire)

TORONTO, Aug. 13.—Lieut. General Currie, in command of the Canadian forces at the front, in a cable to the officers of the Win-the-War League says: "If support is now withheld or even delayed it means that an additional burden will have to be borne by us already doing the seemingly impossible. The fight must go on until final and complete victory is attained. From the agony of the battlefield goes forth the prayer that our home land does not desert us in the hour of our need and of our approach to triumph."

Automobiles were kindly provided by Messrs. J. C. Macdonald, A. Thompson, McCoppin, Connally, Pierre Emery, Greenfields, McDougall, Porte, McDermid and J. S. Thompson and on the South Side by J. Barr, R. B. Douglas, W. J. Saunders, G. W. Dalphin and R. A. Huriburt.

GENERAL STRIKE NOW ON IN SPAIN

(By Morning Bulletin Leased Wire)

MADRID, Aug. 13.—The strikes begun on Friday night by the railroad employees became general at an early hour this morning, when the masons and printers, carpenters and other workers joined in. At the same time they received their orders to lay down their tools they went quietly home and no incidents have been reported.

JOURNALIST THE NOMINEE

STE. JEROME, Que., Aug. 13.—J. E. Provost, a local journalist, has been nominated as Liberal candidate for Terrebonne for the house of commons. Mr. Provost has pronounced himself a strong supporter of Sir Wilfrid Laurier.

DEVASTATION OF PALESTINE TURKS' PLAN

Situation In Holy Land Becoming More Serious.

JERUSALEM NOW BEING LOOTED

Calculated Policy Of Plundering And Killing The Natives.

(By Morning Bulletin Leased Wire)

CAIRO, Aug. 13.—The situation in Palestine this summer is the result of a scheme for the looting of Jerusalem which is already being executed. Through-out the countryside the Turk has embarked on a calculated policy of plundering and killing the native inhabitants so that if they are forced to vacate the country they will leave behind them a desert.

Young Turks Guilty

The following statement of the present situation is given to the Associated Press by an official in touch with conditions:

"The attitude of the Young Turks toward the unfortunate non-Turkish races within their empire has been an open campaign of robbery, exploitation and massacre.

"The stupendous wickedness of the extermination of the Armenian nation cannot be dismissed as a particular measure aimed at one particular race, for it is the Turkish policy towards the non-Armenian races, both Greeks and Jews, in fact all people who are subjects of the Turk but are not themselves of Turkish blood.

"It is the Turks' calculated policy to kill off the bulk of the inhabitants of Palestine and extort the last ounce of money and goods from them, so that if they are forced to vacate the country, they will leave behind them a poverty-stricken and depopulated land.

Savage Brutality.

"Their policy is not consistent with military or economic needs and is not supported by even the slenderest pretexts for its necessity. It is dictated solely by a savage brutality.

"The disaster that befell the Armenian nation is now being meted out to the mixed non-Turkish population of Syria and Palestine. Families are being massacred, towns and territories evacuated and conserved, play an important part in solving the problem.

Law Is Disregarded

The restrictions which have been put upon fishing have resulted in a reduction of the supply and lack of fish have resulted in a decided deterioration of the fish put upon the market.

The consumer, in consequence, has been put up with an inferior and comparatively scarce article at a higher price. The northern lakes, such as Lesser Slave Lake and Lac la Biche, are accordingly much more popular.

Major Bourgeois Advocates Less Fishermen And Better Inspection.

By means of a substantial increase in the amount of the catch permitted, by a limitation of the number of licensed fishermen, by inspection at the point of shipment, and by the government's agreeing to pay one half the express charges, an abundance of fresh-water fish, of the finest quality and in a perfect state of preservation, at the price of 10 cents per pound, will be immediately available in Edmonton and all over Alberta.

Clarendon Major T. J. Bourgeois, who has been asked by the food controller's department for advice and suggestions relative to the fish supply.

In these days when every nerve is being strained to increase the amount of food produced and to lessen the consumption of wheat and beef in order that a larger supply shall be available for overseas needs, the immense supplies of fish in the great lakes of Western Canada will, if properly utilized and conserved, play an important part in solving the problem.

By means of a substantial

WILL REDUCE FISH PRICES IN EDMONTON

(Continued from Page One.)

With a gasoline launch, this sort of thing would be put a stop to.

No Risk of Spoilage.

The food controller would be able to secure a substantial reduction in price to the consumer without the fishermen losing anything and the buyers, not having to risk the heavy spoilage risk which they are now obliged to carry, could lower their prices to the retailer without loss.

Major Bourgeois said that his ideal was only the providing of fish at a lower price. He wants a pound against the 12 and 14 now named, but the quality of the goods would be so standardised that a child could be sent to the market to buy fish with the certainty of obtaining a perfectly fresh and eatable article.

The major is making a few final arrangements and says that if all goes well this may be accomplished in Edmonton in a very few days.

NOT READY TO GO ON IN ARCADIA CASES

More Charges Are Laid, But Defense Has Not Received "Particulars."

An adjournment in the case of the liquor charges against the Arcadia cafe was granted in police court Monday morning on the request of the defending counsel. The magistrates overruled the defense's demand to furnish the defense with a bill of particulars concerning the alleged offenses which stretch over a period of one week. Several new charges were laid when the case was called. The accused are John Walter Napper and Charles Zahner, alleged proprietors, and John R. Dennis, waiter.

ROUND TRIP EDMONTON TO VANCOUVER AT GREATLY REDUCED RATES

Vancouver Exhibition, August 20-25.

Take advantage of this very Low Rate for a Trip to the Coast.

THE Vancouver Exhibition is the great annual provincial fair of British Columbia. Its attractions fully fill all the great natural resources and industrial activities of the province.

FRESH, Flowers, Live Stock, Lumbering, Mining, Fishing, Agricultural Manufactures, etc. Continuous displays in various buildings. Daily program of special attractions.

THE trip also offers inducements of a general character—Salts rates, bathing at the English Bay, boat trips to Capilano Canyon and through Stanley Park—excursions up Howe Sound and the North Arm—visits to great shipbuilding yards and industrial centers.

PLAN TO TAKE THIS TRIP

ACCOUNTANTS WILL MEET AT BANFF FOR ANNUAL CONVENTION

**Address of Welcome is to Be Given
By Lieutenant-Governor
Brett.**

This is to be accountants' week at Banff and some half-dozen Edmonton men will be in attendance at the convention which opens on Tuesday at the C. P. R. holiday resort.

The opening day, August 14, will be the reception day, in that no regular business of the convention will take place. On Wednesday morning, however, the first meeting of the council will take place, at 9 o'clock. Following this meeting there will be an opening session at 11 o'clock in the morning, including an address of welcome by the lieutenant-governor, the president's address, appointment of committees, and appointment of auditors.

At the afternoon session on Wednesday papers will be read and addressed and the schedule of the day on Thursday will be devoted to an excursion to places of interest in the park adjacent to Banff.

On Friday, the final day, additional addresses will be made, including one by F. M. Black, and reports of the various committees will be heard, as well as the final luncheon, at 12:30 o'clock, and the reports of constituent societies and the transaction of general business.

MORE IMMIGRANTS ON THE WAY NORTH

**Forty-Seven Pass Through City
in Week—Mostly for Peace
River.**

Forty-seven immigrants have been cleared through the Edmonton immigration office during the past week. Land has been taken up by these new settlers in the Peace River, Spirit River and Grande Prairie districts. Canadians, citizens of the United States; Russians, returning to their native land; and French immigrants are included in the list.

AMERICANS ON TOUR CALL AT EDMONTON

**Mr. And Mrs. Trace, of Laurel,
Montana, Have Covered
1,500 Miles.**

As part of their extended summer holiday automobile tour of North America, Mr. and Mrs. A. L. Trace of Laurel, Montana, visited Edmonton over the week-end. They will return to Innisfree, where they have been visiting his brother, L. M. Trace and family. Thence they will proceed to visit friends in Ontario, motoring through the United States side of the Great Lakes.

They started from Laurel, Montana, on July 29th and visited the Yellowstone National Park before coming north through Butte, Helena, Sweet Grass, Coutts, Lethbridge, Calgary, Coronation, Innisfree and Strome, from where they headed northeast, coming around the south side of Birch Lake to their brother's cottage at the lake, where they arrived on Tuesday, July 31st.

They had a very pleasant trip, camping in tents and visiting relatives along the way. After a centre 150-mile journey they met no auto from the time they started till the time they reached Innisfree, except a slight shower at Killam.

VATICAN DENIAL
ROME, Aug. 13.—Reports from foreign sources that Monsignor Tedesconi had succeeded Cardinal Gaspari as the papal secretary of state are denied at the Vatican. It is stated there that Cardinal Gaspari enjoys the full confidence of Pope Benedict and that no change in the office of secretary of state has taken place.

Miss Florence Harfield, 32, Launder Ave., Toronto, Ont., writes: "I was troubled with a violent attack of diarrhoea. I suffered terribly with it for four days and nights, and finally I became so weak I did not think I could stand any longer. My sister advised me to try a bottle of Dr. Fowler's Extract of Wild Strawberries. I did so, and after I had taken three doses I felt a whole lot relieved. I kept on taking it, and by the time I had taken six doses, the diarrhoea had completely stopped. It did not leave me constipated. I think it a wonderful remedy, as it is so quick to act. I will recommend it to all my friends."

There are many spurious "Strawberry" preparations sold, that you should see that the name "Dr. Fowler's" is on every bottle you buy. Price 35¢. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Diarrhoea arises from many causes such as change of diet, change of water, change of climate, change of cold, the eating of unripe fruits or anything that will cause an excess of bile.

On the first sign of any looseness of the bowels it should not be neglected, but should be looked after immediately, for if not diarrhoea, dysentery or some other serious bowel complaint may ensue.

Diarrhoea arises from many causes such as change of diet, change of water, change of climate, change of cold, the eating of unripe fruits or anything that will cause an excess of bile.

On the first sign of any looseness of the bowels it should not be neglected, but should be looked after immediately, for if not diarrhoea, dysentery or some other serious bowel complaint may ensue.

Miss Florence Harfield, 32, Launder Ave., Toronto, Ont., writes: "I was troubled with a violent attack of diarrhoea. I suffered terribly with it for four days and nights, and finally I became so weak I did not think I could stand any longer. My sister advised me to try a bottle of Dr. Fowler's Extract of Wild Strawberries. I did so, and after I had taken three doses I felt a whole lot relieved. I kept on taking it, and by the time I had taken six doses, the diarrhoea had completely stopped. It did not leave me constipated. I think it a wonderful remedy, as it is so quick to act. I will recommend it to all my friends."

There are many spurious "Strawberry" preparations sold, that you should see that the name "Dr. Fowler's" is on every bottle you buy. Price 35¢. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Citizens To Aid Tax Collection

RECOMMEND BOARD OF TRADE TO COOPERATE WITH THE CITY IN SECURING PAYMENT OF TAXES

Action by Civic Interests Committee After Hearing from Mayor Henry—Collection of Taxes Discussed—Also an Easier Plan for Giving Title to Property Sold for Arrears.

The board of trade should co-operate with the city administration in endeavoring to secure the payment of 1916 taxes, and that the members used their personal influence in every way to assist in bringing about the payment of the taxes, is the recommendation which the civic interests committee will make to the board today.

The recommendation is the outcome of a conference between the civic interests committee of the board of trade and Mayor Henry, held at the invitation of the latter.

Those present included Mayor Henry, Commissioner Harrison and Assessor Walker, H. Milton Martin, chairman of committee, James Ramsey, C. F. Newell, G. W. Swanson, M. R. Jennings, M. J. Hutchinson and Secretary Fisher.

Mayor Explains.

Mayor Henry is explaining the financial position of the city, said that a million dollars in cash was needed to carry on to the end of the year. It was believed that the bank would carry the city as far as interest falling due was concerned, and this would leave \$72,000 to be found. Of this \$57,000 would be forthcoming from the utilities. The remaining \$14,000 the libraries would have to carry themselves or have to meet the greater part of their requirements themselves.

The mayor further explained how the city had to do business on its anticipated tax revenue for the current year, and taxes were all pledged, while loans had been secured on previous tax arrears, leaving them 1916 tax arrears to do business with. Some of this money had to be paid.

In the discussion which followed the policy of suing some of the biggest defaulters was considered among other suggestions.

Assessor Walker said that tax arrears on property from 101st street to 109th street north of Churchill ave alone amounted to \$875,000.

Mr. Henry said that twelve names could be picked out of the list of owners whose combined arrears came to \$100,000.

Collection System.

It was pointed out that the whole system of the collection in the city was at fault and that in every way, up to the present, it had been made easy for the owner who did not want to pay his taxes to escape any serious consequences from not doing so.

"The mayor has got to have more power to collect this money," said James Ramsey, "and the people have got to get behind him." He told the legislature to see that he has it given.

The remark having been made that assessments were too high and that taxes eat up the property value, James Ramsey asked the assessor for the average assessment on Jasper avenue.

"Eighteen hundred per foot on Jasper avenue," answered Assessor Walker.

"And how about 101st street, where it intersects Elizabeth?" asked Mr. Ramsey.

"About \$1500 per foot," was the reply.

Mr. Ramsey said that he did not think these assessments excessive and others present agreed.

One of the conclusions arrived at was that it must be made easier for the city to take over land in arrears for taxes than now exists.

"If the city could give title with the sale every time put up at a tax sale would be sold," was the general comment.

Mr. Newell said that a readjustment of property titles throughout the city on the same basis as the plan adopted by the Hudson's Bay Co. and other firms, would help considerably.

Death Is Only Penalty Eskimo Knows; Most Primitive of Races

William Thompson, Author and Ethnologist, Who Came From Fort McPherson With Mounted Police and Prisoners, Tells Eskimo Customs.

More primitive than any race of people in the darkest Africa, less touched by civilization than any in the world, the Eskimos offer to ethnologists the most fertile subject for study, according to William Thompson, author, traveller, and ethnologist, who is in Edmonton, having come from Fort McPherson with the Mounted Police party which brought the five Eskimos, two of whom are to be placed on trial Tuesday, to the courts.

To a reporter for the Bulletin he said:

"Where Square Deal Pays."

"The five year course at school gives the pupil only a smattering of learning, but no education; however, and in some cases the Indian has been employed by the fur trading companies and makes an efficient servant."

Mr. Thompson is enthusiastic about the Eskimos, and is in a position to speak to their health and industry. This is a matter that has been debated exhaustively, but one has only to go north to see it for himself.

Some Pupils Make Good.

"The five year course at school gives the pupil only a smattering of learning, but no education; however, and in some cases the Indian has been employed by the fur trading companies and makes an efficient servant."

Mr. Thompson is enthusiastic about the Eskimos, and is in a position to speak to their health and industry. This is a matter that has been debated exhaustively, but one has only to go north to see it for himself.

He Also gave the R.N.W.M.P. highest praise for the way they had handled the Indians, and offered to let them do anything for the Police. They combine undoubted courage with tact. There is only one other force that approaches them in efficiency, the Guard Civil of Spain."

One thing I noticed. The Eskimos once become accustomed to white man's food are ravenous. They soon became fat. They could not eat pepper and salt, however.

"Living previously on nothing but fish and caribou they soon got to like soup, potatoes, beans, and bread, and I can hardly see how they will ever be content again with the food they existed on before.

ST. FAITH'S SCOUTS IN CAMP, ST. ALBERT

The St. Faith's 18th Edmonton Boy Scouts are having a very enjoyable time at their camp at St. Albert. Sunday the Rev. Canon Boyd visited the camp and gave a short service, which the boys greatly appreciated.

On the visitation day, Mr. and Mrs. Lamont, all the boys are greatly indebted to their good St. Albert friends who have helped to make their visit enjoyable by giving them camping ground and boats, and also to the great interest taken in their camp life by Mr. and Mrs. Calverhouse.

SCOUTS USE NEW IMPLEMENTS OF COPPER WHICH ARE FASHIONED FROM THE RAW MATERIAL TO BE FOUND IN HUNDREDS OF PLATES IN COPPER MINE RIVER—Huge Slabs of Pure Copper Are Pure and Will Be Commercially Developed, It Seems to Me. It is soft and pliable.

"It is true that the 'civilization' of the Eskimos and the Indian has been a detriment to their health and industry.

There is no question that the Eskimos, as far as he is in any way concerned, are primitive methods. First you have the Indian in his shack, then in his tent. The Cree, Blackfoot, and the Indians are found in that order, until at Arctic Red River the Delta Eskimos are to be found coming to trade in large numbers at Fort McPherson.

The Eskimos new implements of copper which are fashioned from the raw material to be found in hundreds of plates in Copper Mine River—huge slabs of pure copper are pure and will be commercially developed, it seems to me. It is soft and pliable.

Opal Raises \$90 For Red Cross

A successful picnic was held on July 19th on the lawn of J. A. Milne, Opal. The working committee of the St. John Ambulance association gratefully acknowledge the receipt of the following donations:

Mr. Cook, 1 pair socks; Jasper Place Chapter I.O.D.E., \$2.00; Lloyd George Chapter I.O.D.E., \$10.00; Mrs. Thos. Adam, \$2.50; Col. Hardwood Chapter I.O.D.E., \$10.00; Proceeds of picnic at North Bank, Duncan, \$1.00; Mrs. J. M. Bryden, Mansville, \$5.00; Mr. J. B. McCormack, \$5.00.

The Green Cross.

"Oh sister dear, did you hear
The news that's going round,
Of the bright green cross, that's being
Worn
By tillers of the ground?"

Suffragists of the National American Woman Suffrage Association who have raised themselves to be soldiers are putting out one of the most effective war buttons. It is a white cross on a white background; above it are the words, "Soldiers of the Soil," and below it the initials "N. A. W. S. A." for National American Woman Suffrage Association.

The green cross button is advocated by the National Chairman of Suffrage Association, Mrs. Anna Rogers, Mrs. Wade Rogers of New York, and Mrs. Wm. McNab Miller, of Missouri, who are in charge of the departments of food production and food conservation of the association.

These buttons may be worn by all of the 2,000,000 women of the association who are working to raise or conserve food for winter use.

PATHE TRAVELOGUE AND COMEDY

Wouldn't you like to see a production that will show you some happiness that came out of war-stricken Europe—especially Belgium—with none of the attendant grossness?

Then you must come and see "The Little Orphan" at The Majestic Theatre this Saturday evening.

In it, as the little Belgian refugee, she has her most appealing role, and she is positively wonderful. It's a rare treat for happiness-loving folk, and it is different from the ordinary "blood and thunder" stories we are used to seeing.

The Manager wants every little orphan in Edmonton to come to The Majestic Theatre today and tomorrow afternoon, and see "THE LITTLE ORPHAN" free when accompanied by an adult.

to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared. I gained in strength, moved into our new home, did all kinds of garden work, shovelled dirt, did building and cement work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O. JOHNSTON, Route D, Box 190, Richmond, Ind.

Behind the Footlights

ENTERTAINING BILL AT THE PANTAGES

CROP REPORTS

(From Bulletin Local Correspondents)

At Stanger, recent rains are of much benefit to late grain, garden truck and potatoes. Wild fruit of all kinds is much more abundant than in former years. Frost has turned some potato tops black.

At Langruth, the heavy rain on Monday was a great benefit to growing grains. The weather is now hot, which will help to force the ripening of grain. Mr. Nickels has begun cutting his barley, which was sowed early on summer fallow. It promises to give good yield.

At Donnelly, harvesting has started at several places in the settlement and the rapid growth of the crops for the past two weeks is exceeding what was expected in the first part of the season.

At Sangudo, heavy rains fell. Crops doing fine. Cutting barley has begun. Potato crop is good. Fine new potatoes are selling \$1.50 per bushel. Some farmers report frost on Aug. 8th, though no serious damage was done in this immediate vicinity.

At Wanlock, heavy rains fell. Some frost, but potato tops and blossoms. The other crops are not hurt. Everybody is busy making hay, which is good in this district.

In Sangudo district, crops are looking fine. There must be heavy crops 20 to 40 miles northwest of Sangudo, as there are a lot of binders being freighted from here to that part. Anselmo reports heavy crops at that point, 25 miles west of Sangudo. Crops consist of oats principally.

Looking Good.

At North Bank, owing to bountiful rain, crops are looking good. Wheat is filling out well. Monday night frost cut potato tops and beans and north of here crops were frozen.

Haying is in full swing but crops are very light, in some places, only six inches high.

At Glendale, crops are reported to be in splendid condition. Barley is about ready to cut. Recent rains have helped the late crop, which was set in for green feed. Farmers have been busy making hay, which is a heavy yield in most places. Considerable breaking and summer fallowing has been done. There will also be heavy crop of potatoes in the district, providing no early frosts come and break the crop.

At Minto, the frost of the morning of the 8th, August, which cut beans, cucumbers, tomatoes and potatoes, has not hurt the potato crop, nor the grain. Straw is somewhat short, but it may be all the better for that, as it is likely there will be a better crop of grain. The fine spell of weather the farmers had for haying, consequently there is a lot of very good hay put up. Harvest will be in about two weeks. Crop looks very promising in this district, and if nothing happens between now and harvest, we look for some splendid yields.

At Mahaska, crops are short for the want of rain. Wild hay is fairly good on the bottom lands of the McLeod River. James Rusch has some timothy that will go two tons to the acre. He has some good spring wheat. Mr. Harven is going to try out rye and winter wheat, having sown some of each. Haying is in full swing, due to a very badly needed rain. There is a good prospect for a crop. Gardens are coming along very good. George Tenay has had new potatoes.

Promised Rains.

At Lake Isle, the plenteous rains from Aug. 2nd to 7th have given such an impetus to the late sown oats that the supply of green feed is now practically assured.

At Conning, the late sown oats are in fine condition. The late rains have given such an impetus to the late sown oats that the supply of green feed is now practically assured.

At Middleton, the late sown oats are in fine condition. The late rains have given such an impetus to the late sown oats that the supply of green feed is now practically assured.

At Arville, a great deal of rain has fallen during the past ten days. Crops look very well, and farmers expect to commence cutting barley in a couple of weeks, if weather conditions are favorable. Haying has been delayed by the wet weather.

Have Done Wonders.

At Ardrosson, the recent rains have done wonders for the crop prospects and the outlook is now very encouraging. The late grain has assumed a much more healthy color, and the green feed has taken heart, and is looking fresh and lusty. A good average crop of grain and vegetables will be harvested. Alexander Bros. have an especially fine stand of wheat and oats, and the former looks good for fall. The latter is in a conservative estimate. A number of farms are assuming a decided tinge, and it is confidently expected that three weeks of good weather will put the binders to work in the wheat fields.

TUESDAY, AUGUST 14, 1917

The easiest way to get people to eat "substitute foods" is to make the substitutes cheaper than the others.

It is admitted by Conservative papers that Canada needs a national government—that is, a government which puts the duty and interests of the country ahead of considerations of party advantage. In that case the first step is for the present government to get out. It is useless to look for a national Government under Sir Robert Borden. He has had three years in which to nationalize his Government, and by the proclamation of his newspaper friends he has not done it.

The United States Government is urging the farmers of that country to produce a billion bushels of wheat next year. The Canadian Government, through the Board of Grain Supervisors, has fixed the maximum price that may be paid for wheat in Canada, but has left the dealers free to beat down the farmers' price to any figure they may be able to arrange among themselves. Either the United States Government is mistaken in supposing that a large wheat crop will be needed next year, or the Canadian Government must be mistaken as to how to go about it to encourage the farmer to grow a larger crop.

Mr. Bourassa and his friends continue to incite the people of Quebec to resist conscription by force, and they are still at liberty. If such a propaganda were started in any other part of Canada the instigators would be promptly jailed, and the mad movement stamped out. Yet the power of the agitators would be less in any other part of Canada than it is in Quebec. It is surely a sad spectacle that a handful of mischief-makers are allowed to incite defiance of authority, libel the country's aims, and widen the breach between the two great sections of the populace, while the Government sits idle, either acquiescent or afraid to interfere.

Sir Robert Borden says there will be no conscription of men who were born in enemy countries. Why deprive them of the opportunity of doing their bit for the country they have come to live in, and whose free institutions safeguard their personal liberties and property rights as much as those of any other citizens? If it is not thought advisable to use them for military service there is plenty of "war work" at home they could be set to, or would be if the Government had enough initiative to take over munitions plants, or cultivate wild land, or develop mines, or get out timber for shipbuilding. Any sort of productive work in these times is "war work" in reality, and any man engaged in it is doing something to help the cause. If we wish to make Canadians of these men why not treat them as though we considered them citizens and expected them to do what was required of citizens in the time of stress? There is no such race discrimination exercised in the United States; and in some states the papers report that young men of German and Austrian descent were the first to come forward when the call was sounded. May it not be that a sense of citizenship is created when the duties of citizenship are imposed?

Food gamblers grow rich on what other people waste.

If people should stop eating white flour the Government should stop the millers from making white flour.

One reason why voluntary enlistment slackened is that the soldier is paid \$1.10 per day to risk his life, while the unskilled laborer gets two or three times that and lives in safety.

The food controller wants us to eat corn bread so as to save wheat.

The United States has the biggest corn crop on record. Why not take the duty off corn, and give the Canadian consumer a chance to take the controller's advice without being penalized for it?

Nothing has come from Ottawa in contradiction of the prediction of the Ottawa Journal that the franchise act will not be amended at the present session of parliament. Seemingly the Government have decided that women will not be given the right to vote at Dominion elections.

Naturally there is disappointment in certain quarters that the Western Liberals declined to fall in under the leadership of Sir Clifford Sifton in support of reorganization that would leave the Big Interests in control of the Government for another term. The disappointment is being expressed by the newspapers which tried to help "put over" the shuffle.

Men who have made money by keeping men from enlisting, and who can make more money by keeping more men from enlisting, are not the men to set up and support a "win-the-war" government. When they proclaim that to be their purpose it is time for the public to get suspicious. The profiteers are out for profits, not for victory. The longer victory is deferred the more their profits.

The London Times and other prominent English papers are demanding that when title is conferred by law to make a solemn statement that it has not been paid for. Why not a similar stipulation in the laws of Canada? If our pork barons are cashing up for their honors the public are at least entitled to know it, and how much, and where the money goes to.

Voluntary enlistment did not break down in Canada. It was broken down. And the profiteers who broke it down are now conspiring to get control of the machinery of conscription. That machinery has been so constructed that if operated by them or under their influence it can be used to exempt from military service men whom they want exempted. The interest of the profiteer is to keep a plentiful supply of labor in the community in which he operates, both as a reserve from which to secure employees and as a means of depressing wages and enhancing profits. Under the present or any other government dominated by the profiteers conscription would be prevented, just as voluntary enlistment was prevented, wherever it was to the financial interest of the profiteers to prevent it.

Mr. Bourassa and his friends continue to incite the people of Quebec to resist conscription by force, and they are still at liberty. If such a propaganda were started in any other part of Canada the instigators would be promptly jailed, and the mad movement stamped out. Yet the power of the agitators would be less in any other part of Canada than it is in Quebec. It is surely a sad spectacle that a handful of mischief-makers are allowed to incite defiance of authority, libel the country's aims, and widen the breach between the two great sections of the populace, while the Government sits idle, either acquiescent or afraid to interfere.

Sir Robert Borden says there will be no conscription of men who were born in enemy countries. Why deprive them of the opportunity of doing their bit for the country they have come to live in, and whose free institutions safeguard their personal liberties and property rights as much as those of any other citizens? If it is not thought advisable to use them for military service there is plenty of "war work" at home they could be set to, or would be if the Government had enough initiative to take over munitions plants, or cultivate wild land, or develop mines, or get out timber for shipbuilding. Any sort of productive work in these times is "war work" in reality, and any man engaged in it is doing something to help the cause. If we wish to make Canadians of these men why not treat them as though we considered them citizens and expected them to do what was required of citizens in the time of stress? There is no such race discrimination exercised in the United States; and in some states the papers report that young men of German and Austrian descent were the first to come forward when the call was sounded. May it not be that a sense of citizenship is created when the duties of citizenship are imposed?

To the Bulletin: (1) Give the names of army officers from the lowest to the highest rank in their respective duties during action? (2) Kindly explain the various designations that constitute an army—such as regiment, column, battalion, division, etc.

H. J. M.

Lieutenant, Captain, Major, Lieutenant-Colonel, Colonel, Brigadier-General, Lieutenant-General, Major-General, General, Field Marshal.

These offices command the following units, names in the same order: Platoon, company, platoon, battalion, regiment, brigade, army corps, division, army, expeditionary forces.

A company is composed of two platoons, a battalion of eight companies, each major commanding four companies; a major consists of three battalions, a brigade of five regiments, an army of two to five army corps, and an army of several divisions. The organisation is frequently altered to suit conditions. For instance, a colonel may be given the command of a whole brigade.

Why is it that only one side of the moon is visible from the earth?

L. P.

The reason for only a part of the moon's disc being visible to the earth is that the east and west sides become alternately visible; that is called the moon's longitudinal librations. The libration in longitude arises from the moon's axis not remaining perpendicular to her orbit, in consequence of which a part of her surface round the North Pole is visible during one-half, and a corresponding portion round the South Pole during the other half of her revolution in her orbit; the libration in latitude is about 6 degrees, 41 minutes.

Farmers Not Exorbitant

Hansard Report of July 2nd:

Mr. OLIVER: In regard to certain negotiations that were in progress, I think last fall, in reference to the crop that is now on the market, I understand my hon. friend, the Minister of Trade and Commerce, was in conference with certain representatives of western grain interests in regard to fixing a price at that time. My understanding was that there was a price offered and a price demanded, and that if the arrangement had been closed at that time those who to some extent represented the farming interests would have quoted a basic price of \$1.70 for No. 1 Northern, as against \$1.30 offered on behalf of the Government through the Minister of Trade and Commerce. What is the tact in regard to that matter?

Mr. GEORGE FOSTER: I think the fact can very easily stand. The Canadian Government have been silent since the beginning of the war, that Canada should have all possible opportunity of supplying the demands of Great Britain and the Allies for such things as Canada produces. We have always been in touch with the British Government and its different departments, and have been in constant communication with all kinds of people that are required and that can be produced in Canada. We are kept up to the mark in that respect by the people in Canada who have these things to sell and who are anxious to dispose of them. In carrying out that line of communication which had been agreed upon, the question was mooted as to the crop of 1916-17. The British Government were asked whether they had any proposals to make with reference to the securing of that crop. Different communications took place. I was in touch with Mr. Maharg, the Canadian Export Wheat Buying Commissioner, and talked the matter over with them. The result was that they made an offer for the whole crop surplus for 1916-17, the offer running at about \$1.20 or \$1.22 a bushel at Fort William. Ultimately they raised the offer to about \$1.30 or \$1.32, simply because they wanted to make a profit. Certainly, my lad—certainly! said the old colonel. "I will, with pleasure—if you'll use your influence to stop the whole battalion calling me 'that bad hogg-legged old buffer with the bad head'."

THE PROFITEERS SAVIOUR

From the Toronto Star:

The income tax is all right as far as it goes, but the war profits tax is to get away with nearly all they can make in 1918. And the present intention is to let them keep practically all they have already salted down.

THE SLIME OF POLITICS

From the Halifax Chronicle:

In an editorial headed, "The Slime of Politics," the Kingston Whig-Standard charged that Lieut.-Col. W. J. Brown and Lieut.-Col. H. R. Wilson, both of the Headquarters Staff of Military District No. 3, at Kingston, Ontario, who have performed splendid service in connection with the mobilization and training of troops during the past two years, have been retired for political reasons to make room for political cronies.

Mr. OLIVER: I believe that one of the gentlemen who was concerned in these negotiations was Mr. Maharg, president of the Council of Agriculture.

Mr. OLIVER: Yes.

Mr. OLIVER: Has the minister seen Mr. Maharg's statement in regard to these negotiations? If so, does he agree with that statement?

Mr. GEORGE FOSTER: I have seen the interview which was given by Mr. Maharg. In as far as he carried it out, I think he did not fully understand what had been taken. They discussed the question with me, went back, and then decided that the terms were not high enough. Consequently, the thing fell through.

Mr. OLIVER: Did they make an offer?

Mr. GEORGE FOSTER: If my memory serves me correctly, the price ranged between \$1.50, minimum price and \$1.75, maximum price.

Again the question of minimum and maximum came up. There is a good deal in favor of the contention that if a maximum price is mentioned and the necessity for the grain is pressing, the grain brings the maximum price.

Mr. OLIVER: I believe that one of the gentlemen who was concerned in these negotiations was Mr. Maharg, president of the Council of Agriculture.

Mr. OLIVER: Yes.

Mr. OLIVER: Has the minister seen Mr. Maharg's statement in regard to these negotiations? If so, does he agree with that statement?

Mr. GEORGE FOSTER: I have seen the interview which was given by Mr. Maharg. In as far as he carried it out, I think he did not fully understand what had been taken. They discussed the question with me, went back, and then decided that the terms were not high enough. Consequently, the thing fell through.

Mr. OLIVER: Did they make an offer?

Mr. GEORGE FOSTER: If my memory serves me correctly, the price ranged between \$1.50, minimum price and \$1.75, maximum price.

Again the question of minimum and maximum came up. There is a good deal in favor of the contention that if a maximum price is mentioned and the necessity for the grain is pressing, the grain brings the maximum price.

Mr. OLIVER: I believe that one of the gentlemen who was concerned in these negotiations was Mr. Maharg, president of the Council of Agriculture.

Adventures of Uncle Wiggily

By Howard R. Garis

Uncle Wiggily and the Mince Pie.

Copyright, 1917, by McClure News-paper Syndicate.

Uncle Wiggily Longears, the nice rabbit gentleman, was sitting in his hollow stump bungalow one day reading about Mother Goose and how she gave "Tommy Tucker his supper."

"And then there's mine eye."

That is what Uncle Wiggily read out of the Mother Goose book.

"Oh, my eye! Mince pie! A nice, rich piece I'd like to try!" said the bunny rabbit to himself, sort of making up a little song. Then he called out,

"Nurse Jane! Nurse Jane Fuzzy Wuzzy! Is there any mince pie in the bungalow?"

"Not a bit. I'm sorry to say," answered the muskrat lady housekeeper. "Who wants it?"

"I do," said Uncle Wiggily. "Can't you make me some?"

"I'm sorry to say,"

answered Nurse Jane, "I have to hurry down town to a meeting of the Red Cross Society, that is going to make mosquito bandages for the lightning bugs. If you must have mince pie—"

"Why, I can make it myself, I suppose," laughed Uncle Wiggily. "Well, I'll soon try to make a pie. Nurse Jane, is everything that I need in the bungalow?"

"Yes, everything. But you never can make a mince pie, Wiggly. It's ever so much harder than making a cherry pie, or which you are very fond. Better wait until I come back."

"No; thank you, just the same, though. Nurse Jane, spike the bunny uncle. I guess I can make a mince pie. How do you do it?"

"Well, first you make the mince meat. To do that you chop up together some apples, some lean meat, some citron, some sweet cider and lots of cinnamon and other spice. That's the filling of the pie. Then you make some shortening for the other pie, and put the mince meat in between, just as you get in heel and pull the covers over you. Bake it in the oven and you have a mince pie."

"I'll do it!" cried Uncle Wiggily. And when Nurse Jane had gone to the Red Cross meeting the rabbit gentleman settled in his bungalow.

He took a long wooden bowl, and in it he put some apples, some meat left over from breakfast, some citron, some lemons, some oranges and then he came to the spices.

"I'm going to put in plenty of cinnamon, for I like that," Uncle Wiggily said to himself. "Let me see, where does Nurse Jane keep it? Oh, I remember, it's in the piano."

He opened the pantry door in the hollow stump bungalow kitchen, and out popped the bad old sly fox.

"Ah, ha! Good morning, Uncle Wiggily," sneered the fox. "Not good morning at all—it's bad!" said the sly bunny.

"Well, maybe it's bad for you, but it's good for me," said the fox. "We've

come to have dinner with you. What have you?"

"I'm going to make a mince pie," said the rabbit gentleman.

"Pooh! None of that for me!" grunted the fox. "Haven't he any rabbit stew?" and he cracked his hungry lips, extemporaneous like.

"I haven't a bit of rabbit stew in the bungalow," said poor Uncle Wiggily sort of shivery like, thought it was a bad day.

"Well, then I'll have to make some," went on the fox. "You'll soon be in the store, Uncle Wiggily. I've been hiding him quite awhile waiting to catch you and now I have."

"So I see," still more sadly said the bunny. "But will you excuse me one moment?" he asked politely.

"What for?" asked the fox.

"I want to put the cinnamon in the mince meat for the pie," answered Uncle Wiggily. "I won't be able to eat the pie myself, if you put me in a stew, but Nurse Jane will. Just let me put in the cinnamon. It's on the shelf over your head."

"You may do that, but no more," said the fox.

Uncle Wiggily stepped up over the chair and put the cinnamon on the pantry shelf. But his nose must have slipped, or something.

For down fell the big box of smart cinnamon powder, scattering all over in the eyes and nose of the fox, and he cried:

"Ker-choo! Ker-chaw! Ker-splat!"

He sneezed so hard that he sneezed his head over tall out of the kitchen window and he didn't put the bunny in a stew after all.

Uncle Wiggily sneezed a little himself, but not much, and when the fox was gone the bunny made the mince pie and he and Nurse Jane ate it. And if the piano doesn't go to the store without the music book and try to sing like a phonograph, I'll tell you next about Uncle Wiggily and the Jam.

Viking, Aug. 4.

Has Fun in Holidays

Dear Uncle Tom—This is my third letter to your club. I did not see my last letter in print. Our school starts the 6th of August. I am having lots of fun in the holidays. I have not received my badge, but hope to receive it pretty soon.

OLGA SCHIEL. Duhamel, July 31.

Today We Celebrate

INSURING AGAINST DEVILS

Once every year, during the first fifteen days of the seventh month of the year, the Chinese Festival of the Emony of Yu-Nan-White is celebrated, being in fact the paying of homage to the land and sea devils. Seven priests carry out the ceremony by offering up various forms of prayer and making an unearthly noise by beating gongs. Anyone wishing to show his respect to the devils can do so by paying sixty cents to the priest, who will give ten cents to the priests, for which amount they will continue their performance for twelve hours, which, when you think of it, isn't such a big price to pay for twelve hours' work. For an extra payment of \$2,000 cash a number of small red paper boats about six inches long, with lights inside, will be sent out to the river, which will be lighted. These lights are for the benefit of the sea devils, who are supposed to use the lights in order to find their way about on dark nights. Having finished this performance, the person on whose behalf it has been carried out goes away happy in the conviction that he will lose none of his family through the sea, either by sickness or drowning, so that the whole ceremony may be looked upon as an insurance policy. At this time of the year many thousands of small boats may be seen floating down the Yangtze-Kiang.

WINFIELD PLUMMER. Crippsdale, Aug. 2.

On Holiday at Gull Lake

Dear Uncle Tom—I am spending my holidays now at Gull Lake. I love it down here. We all go in bathing every day. We have a little Wonder gramophone to take out in the boat with us. There is a very nice piece of land on it called "Yaaka Hula Hickey Dula." There is a big storm on the lake now. I love to watch the white-caps. I hope to see this letter in print soon.

KATHLEEN JARVIS. Crippsdale, Aug. 3.

Had Lovely Rain

Dear Uncle Tom—I received my badge and many thanks. I was pleased to see my letter in print, also hope to see this one. We are having lovely showers now. Crops are coming on fine. Wheat, barley and oats are all headed out. Our wheat is starting to get ripe. I sold my garden to my mother for 60 cents. We may have a Red Cross picnic at Lavoy.

FUSSELL GORSLINE. Lavoy, Alta., Aug. 3.

Today's Anniversaries

On August 14, 1211, Llewelyn, prince of Wales, made his submission to King John of England and delivered twenty-eight hostages at the foot of Snowdon for his good faith. Seven priests were hanged the following year.

The great cathedral of Cologne was commenced on August 14, 1243. For the following 200 years building operations were suspended after that instruction lay suspended for 90 years. In 1423 building was again resumed and the building was completed several years later.

On this date in 1775 the celebrated Liberty tree was consecrated by exposing on it the effigies of the men who had rendered themselves odious by their agency in procuring the passage of the stamp act.

It was on August 14, 1842, that the end of the Indian war in Florida was proclaimed.

Other notable events in history that took place on this date were: 1776, constitution of Maryland adopted; 1783, peace with France arrived at Liverpool from Halifax; having made the quickest passage, ten days, accomplished between the American continent and England.

CADET AIRMAN KILLED

CAMP BORDEN, Ont., Aug. 12.—Cadet A. Heylar, of the Royal Flying Corps, was killed in the wreck of his aeroplane yesterday morning. His home is in Midland.

P.—I had a little brother and sister on the 13th of July. Would the members of the club please send in some names for them?

WILL WRITE ABOUT MASSACRE

Dear Uncle Tom—I received my Aladdin club badge last mail and am pleased with it. I enjoy our page very much, also the bed-time stories. I am enclosing the names of twelve of my schoolmates who would like to become members of the Aladdin club. This is such a new district that we have only had school about two years.
